

EQUALITY IMPACT ASSESSMENT

Supported Accommodation for Young People aged 16+, Strategic Commissioning

STAGE 1: WHAT IS BEING ASSESSED AND BY WHOM?

What is being assessed - including a brief description of aims and objectives?	The impact of carrying out a procurement to secure and develop good quality supported living accommodation in Plymouth for young people in care, aged 16 and 17 and care leavers. Young people in care and care leavers need to be able to access a range of living accommodation, including provision such as foster placements and children's homes. For older young people, it is important to also be able to offer placements which focus on developing independent living skills, as preparation for adulthood. The aim of the procurement is to work with the current providers who offer good quality provision, and attract others to work with us to support Plymouth young people.
