CALCULATION OF POLITICAL BALANCE ON COMMITTEES 2016/17

Party	Members	% representation	Seats (proportional)	Allocated seats
Labour	27	47.37%	38 (37.42)	38
Conservative	27	47.37%	38 (37.42)	38
UKIP	3	5.26%	3 (6.47)	3
Totals	57	100%	79	79

So far as is reasonably practicable, political proportionality has been achieved.

The principles of the allocation of seats to political groups:

Section 15 of the Local Government and Housing Act 1989 and the Local Government (Committees and Political Groups) Regulations: the City Council has a duty to review the representation of different political groups at its Annual Meeting in respect of bodies to which the section applies. Section 15 provides that, in performing this duty, the council has a duty to make only such determinations as give effect so far as reasonably practicable to the following principles:

- (a) that not all the seats on committees are allocated to the same political group;
- (b) that the majority of the seats on each committee are allocated to a particular political group if the number of persons belonging to that group are a majority of the authority's membership;
- (c) subject to (a) and (b), that the number of seats on committees which are allocated to each group bears the same proportion to the total of all the seats on committees of the council as is borne by the number of members of that group to the membership of the authority, and
- (d) Subject to (a) to (c) above, that the number of seats on each committee which are allocated to each political group bears the same proportion to the number of all the seats on that committee as is borne by the number of members of that group to the membership of the authority.

The application of those principles is set out below.

Principle (a) – The seats will be allocated amongst the Labour, Conservative and UKIP groups.

Principle (b) – As no group has an overall majority on the Council, this principle does not apply.

Principle (c) The allocation of seats on all committees is based on the group's percentage of total Council membership is as set out above.

Principle (d) Subject to (a) to (c), each group has the same proportion of seats on each committee as it holds on the Council as a whole.
