SECTION B	
What is working well?	<ul style="list-style-type: none"> First meeting to set the scene of Trauma Informed System Change within Safer Plymouth. The intention is to have group participation across the life course of a person and there is excellent partnership representation including education, children & families services, health, public health, police, RPC, NSPCC. Representatives from Derriford Hospital maternity and the CYP worker from the Refuge are now also on board. Spent time reflecting upon the core values of a trauma informed group / system and how we as a group will embed these values. Reflected upon the priorities of the Safer Plymouth partnership. Spent time identifying possible areas of delivery consistent with current priorities and ACEs prevention.
What are we worried about?	<ul style="list-style-type: none"> Ensuring we can add value and enact meaningful change against the priorities and the intention to be more trauma informed.
