

MOTION ON NOTICE

City Council 25 January 2021

Tampon Tax

We call upon the Leader and Deputy Leader of Plymouth City Council to write to the Chancellor Rishi Sunak to congratulate him on delivering an election promise to abolish VAT on Woman's sanitary products - from 1st January 2021 and to ask the Chancellor to make it clear that it is the government's intention that manufacturers and retailers should honour this commitment to provide a price reduction for the public.

This will now mean that young girls and woman facing period poverty will no longer have to pay extra tax on these products that will go some way to end period poverty in the UK.
