Key Decision:	No
Confidentiality:	Part I - Official

Purpose of Report

The Conservative Administration has identified 86 commitments to Build Back Better in Plymouth. Following completion of commitments 4, 27, 30 and 72 (shown below) all 22 commitments due within the first 100 days have now been completed. All completed commitments are listed in Appendix A.

4. We will continue to lobby the Government to put in place a sustainable funding settlement for Adult Social Care, to include increased funding to support carers and those living independently with disabilities. We will also seek a fair distribution of national Public Health resources for Plymouth.

27. As Conservatives, we are truly committed to improving the environment for future generations. We will put this at the heart of what we do. We will therefore work more closely with our local communities and businesses to create innovative ways to reduce waste, avoid single use plastic and increase re-cycling rates

30. We will lobby the Government to provide funding to allow a major network of electric charging points throughout the city to make electric vehicle ownership easier. We will use the planning system to ensure new build properties have electric charging facilities to support Plymouth motorists changing to electric vehicles

72. To help improve road safety and traffic flow we will encourage greater use of private garages and driveways for the parking of vehicles so leaving the roads clearer

Recommendations and Reasons

That Cabinet:

1. Notes the completion of the 22 commitments identified in this report.

The Leader and Cabinet wish to demonstrate delivery at pace against the Administration's commitments to improvements across a range of services which are important to residents, visitors and businesses.

Alternative options considered and rejected

Not to produce a plan. Without the formal agreement and publication of a defined set of actions within the first 100 days, there is a risk of slippage against commitments and a lack of transparency.

Relevance to the Corporate Plan and/or the Plymouth Plan

The commitments set out at Appendix A relate to the revised priorities set out in the Corporate Plan which was adopted by the Council on 14 June 2021

Implications for the Medium Term Financial Plan and Resource Implications:

Most commitments will be delivered from within existing revenue and capital resources. Where there are new resource implications, decisions will be made about allocation of resources in line with the Council's decision making procedures. Where delegated decisions are required in order to implement specific commitments, financial implications will be set out as part of the decision making process in accordance with the Council's constitution.

Carbon Footprint (Environmental) Implications:

Environmental sustainability is a key priority of the new administration, and the waste management, recycling and traffic management commitments are specifically aimed at reducing the city's carbon footprint.

Other Implications: e.g. Health and Safety, Risk Management, Child Poverty:

** When considering these proposals members have a responsibility to ensure they give due regard to the Council's duty to promote equality of opportunity, eliminate unlawful discrimination and promote good relations between people who share protected characteristics under the Equalities Act and those who do not.*

The commitments within the first 100 day plan make specific contributions to community safety, inclusion, community engagement, increased support for the vulnerable and improved educational standards for children and young people.

We have given due regard to our statutory duties under the Equality Act 2010 and the Public Sector Equality Duty.

The commitment to fast track applications to the blue badge scheme, disabled facility grants and parking spaces for those with terminal illness will have a positive impact on people with disabilities. Securing a sustainable funding settlement for Adult Social Care will contribute to better outcomes for people with disabilities and the agenda to empower local people has the potential to contribute to better outcomes for communities sharing protected characteristics.
