## **TRANSFORMING CITIES FUND – TRANCHE 2**

Creating a world class sustainable transport system.

STAGE I: What is being assessed and by whom? What is being assessed - including a brief Transforming Cities Fund – Tranche 2 description of aims and objectives? Aim: The Fund is part of the National Productivity Investment Fund, providing additional capital for productivity enhancing programmes, through a place-centric approach. It aims to drive up productivity and distribute prosperity through investment in public and sustainable transport in some of the largest English city regions. The Fund is focussed on intra-city connectivity, making it quicker and easier for people to get around – and access jobs in – some of England's biggest cities. Increasing the proportion of journeys made by low carbon, sustainable modes is a further key objective of the Fund alongside aiming to support wider cross-cutting priorities such as: Improving access to work and delivering growth • Encouraging the use of new mobility systems and technology as part of the Grand Challenge on the Future of Mobility Tackling air pollution and reducing carbon emissions Delivering more homes Delivering apprenticeships and improving skills. The Productive Plymouth programme achieves the programme aim and cross-cutting priorities. By transforming the city's sustainable transport network, a step change in the use of

| STAGE I: What is being assessed and by whom? |   |  |  |  |
|--|---|--|--|--|
|  | sustainable travel modes will be achieved, access to work will be improved, housing delivery sites<br>will be unlocked, air pollution and carbon emissions will be tackled (through a reduction in single<br>occupancy car trips and more efficient public transport) and the city will be well placed to adopt<br>the use of new mobility systems and technology as part of the Grand Challenge on the Future of<br>Mobility, as they come forwards. |  |  |  |
|  | Objectives:   |  |  |  |
|  | • Support the local economy and facilitate economic development, for example by improving access to centres of employment, Enterprise Zones, and development sites that have the potential to create additional jobs, reducing congestion, or improving the reliability and predictability of journey times.  |  |  |  |
|  | Reduce carbon emissions.  |  |  |  |
|  | Support housing delivery.   |  |  |  |
|  | <ul> <li>Bring about improvements to air quality, particularly to support compliance with legal<br/>limits in those areas where NO2 exceedances have been identified and are in the process<br/>of developing plans.</li> </ul>   |  |  |  |
