Purpose of Report

This report sets out the forecast revenue finance monitoring position of the Council to the end of the financial year 2021/22, as at the end of January 2022.

The overall savings plans for the year continue to be set out in detail in Appendix A. Of the total target savings of $\pounds 13.845$ m, Directorates are reporting that $\pounds 8.581$ m (over 61%) are already achieved, with a further $\pounds 3.081$ m (over 22%) on track for delivery.

Recommendations and Reasons

That Cabinet:

I. Notes the current revenue monitoring position;

This is part of the monthly monitoring cycle to ensure good financial reporting in line with best accounting practices

2. Notes the setting aside of resources to the value of £2.845m.

This sum has been committed to balance the 2022/23 Budget as described in the Council Budget report, received by Full Council on the 28 February 2022.

Alternative options considered and rejected

None – our Financial Regulations require us to produce regular monitoring of our finance resources.

Relevance to the Corporate Plan and/or the Plymouth Plan

The financial outturn report is fundamentally linked to delivering the priorities within the Council's Corporate Plan. Allocating limited resources to key priorities will maximise the benefits to the residents of Plymouth.

Implications for the Medium Term Financial Plan and Resource Implications:

Robust and accurate financial monitoring underpins the Council's Medium Term Financial Plan (MTFP). The Council's MTFP is updated regularly based on on-going monitoring information, both on a local and national context. Any adverse variations from the annual budget will place pressure on the MTFP going forward and require additional savings to be generated in future years.

Financial Risks

This is the monitoring position as at the end of January 2022. As with all financial information there are associated risks as we move through the year. These are set out in the report, and in particular within the savings tables. All efforts are being made to hold the financial position as forecast level at the year end. The $\pounds 1.907m$ of "red" savings which are at risk of not being delivered, have been covered within the monitoring forecast.

Carbon Footprint (Environmental) Implications:

No impacts directly arising from this report.

Other Implications: e.g. Health and Safety, Risk Management, Child Poverty:

The reducing revenue and capital resources across the public sector has been identified as a key risk within our Strategic Risk register. The ability to deliver spending plans is paramount to ensuring the Council can achieve its objectives.

SECTION A: EXECUTIVE SUMMARY

	Budget £m	Net Forecast Outturn £m	Variance £m
Total General Fund Budget	195.568	195.565	(0.003)

Table I: End of year revenue forecast

The forecast revenue outturn after the application of Covid grants and council mitigating actions is currently estimated to be balanced. This is an improved position of $\pounds 0.529$ m from the last report (period 9). It should be noted that the financial position will fluctuate as we move through the year. Officers and Members will continue to work closely to hold a balanced position at the end of the year.

The pandemic continues to have a major impact on our financial resources, with a potential drawdown of $\pounds 17.824$ m against the currently available grants. Accordingly there is a nil impact on the forecast variance.
