

VEHICLE EMISSIONS POLICY

Hackney Carriage and Private Hire Vehicles

1.0 VEHICLE EMISSIONS

- 1.1 All vehicles plated for the first time by the Council (including existing proprietors on the change of vehicle), must meet the Euro 6 emissions standard as a minimum.
- 1.2 From 1 April 2030, all vehicles (renewals and new applications) must be an Ultra-Low Emission Vehicle (ULEV) as defined by the UK's Office for Low Emission Vehicles as emitting less than 50g CO₂/Km and able to travel at least 70 miles without any emissions at all.
- 1.3 This policy will be reviewed as recommended by the Department for Transport at least every 5 years. Interim reviews will take place to ensure we are striving towards the Government's Climate and Emergency Action Plan.
