

Growth and Infrastructure Overview and Scrutiny Committee

Date of meeting:	22 June 2022
Title of Report:	Climate Emergency Action Plan 2022 and Corporate Carbon Reduction Plan 2022 – In Year Monitoring Reports
Lead Member:	Councillor James Stoneman (Cabinet Member for Climate Change)
Lead Strategic Director:	Anthony Payne (Strategic Director for Place)
Author:	Paul Barnard (Service Director for Strategic Planning and Infrastructure)
Contact Email:	Paul.barnard@plymouth.gov.uk
Your Reference:	CEAPCCRP - 2022 - Monitoring
Key Decision:	No
Confidentiality:	Part I - Official

Purpose of Report

This report fulfils the commitments made at previous City Council, Cabinet and the Brexit, Infrastructure and Legislative Change Overview and Scrutiny Committee to regularly report on progress on the detailed actions contained in the Climate Emergency Action Plans (CEAP) and the Corporate Carbon Reduction Plans (CCRP). This report provides the in-year monitoring position in relation to all the actions that are scheduled for delivery during 2022. There is a detailed commentary on every action set out in the accompanying schedules to the report.

Recommendations and Reasons

1. Note the Climate Emergency Action Plan (CEAP) 2022 Monitoring Report, details of which are set out in Appendix A.
Reason: To acknowledge the progress made in delivering the climate actions agreed by the City Council on 24 January 2022 (Minute 25 refers).
2. Note the Corporate Carbon Reduction Plan (CCRP) 2022 Monitoring Report, details of which are set out in Appendix B.
Reason: To acknowledge the progress made in delivering the climate actions agreed by the City Council on 24 January 2022 (Minute 26 refers).

Alternative options considered and rejected

Previous options have been considered and this process has been agreed by the City Council and the Brexit, Infrastructure and Legislative Change Overview Scrutiny Committee.

Relevance to the Corporate Plan and/or the Plymouth Plan

The actions in CEAP are consistent with the outcomes in the Plymouth Plan, which has been reviewed to reflect the climate emergency declaration. The actions in CCRP are also consistent with the themes and values of the Corporate Plan 2018-2022.

Implications for the Medium Term Financial Plan and Resource Implications:

The Climate Emergency Action Plan and the Corporate Carbon Reduction Plan both set out the strategic direction and necessary focus for the City Council, partners and the wider city in relation to climate change issues for the 11 years to which the climate emergency declaration relates. As both the documents are strategic in nature the precise finance and resourcing implications will be assessed against each individual action as they are progressed. Any future revisions to the Corporate Plan will need to consider the financial implications arising from the commitments set out in future action plans. Budgets will need to be reassessed and capacity released to enable delivery against the stated ambition of net zero by 2030.

Financial Risks

No financial risk

Carbon Footprint (Environmental) Implications:

The Climate Emergency Action Plan and the Corporate Carbon Reduction Plan will drive the efforts to ensure Plymouth is playing its part in meeting net zero carbon by 2030 and will therefore have a very positive environmental outcome.

Other Implications: e.g. Health and Safety, Risk Management, Child Poverty:

** When considering these proposals members have a responsibility to ensure they give due regard to the Council's duty to promote equality of opportunity, eliminate unlawful discrimination and promote good relations between people who share protected characteristics under the Equalities Act and those who do not.*

The City Council promotes a fairer, more equal Plymouth by investing in communities, putting citizens at the heart of decision making, promoting independence and reducing health and social inequality. By embedding this commitment within the Corporate Plan the City Council is acknowledging the importance of ensuring all communities have an opportunity to thrive in a zero carbon world.
