Trauma Informed System Development	Work of the partnership continues to inform the work of the trauma network								

SECTION B

What is working well?	Good collaboration between partners, e.g., Plymouth Approach and work with Plymouth University, Marjon and City College, 16 Days of Action, Male Allyship Network
What are we worried about?	Maintaining momentum on the recommendations contained within VAWG commission report.
What needs to happen?	Seek to understand as to what Safer Plymouth Executive Board wish us to prioritise within the VAWG commission recommendations. Develop programme for 16 Days of Action.
Identify Group Impact	Partners continue to collaborate on identified priority areas including; Street prostitution and impact of cost of living on student population which risks them being exposed to possible exploitation Development of 16 Days of Action programme. This year Trevi are taking the lead and a task and finish group has been established to work on the programme Shared learning from previous campaigns such as Sexual Violence Awareness week, Stalking Awareness week and co-production
Formal recommendation to/action required of Full Board.	Board to note content of the report
Suggested work engagement with Trauma Informed Plymouth Network	A number of the partners are already members of the Trauma Informed Network, which ensures close collaboration and partnership working
