Sector Update	6

The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Council or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Introduction

Your key Grant Thornton team members are:

Paul Dossett

Key Audit Partner

T: 0207 728 3180

E: paul.dossett@uk.gt.com

Justine Thorpe

Audit Manager

T: 0779 4847410

E: justine.thorpe@uk.gt.com

Oscar Edwards

Auditor In Charge

T: 0117 305 7600

E: oscar.r.edwards@uk.gt.com

This paper provides the Audit and Governance Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Governance and Audit Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications <https://www.grantthornton.co.uk/en/services/public-sector-services/>

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at January 2023

Financial Statements Audit

2019/20 financial statements

We presented our 2019/20 audit findings, in our [2019/20 Audit Findings Report](#), to the September 2022 Audit and Governance Committee. We reported that our work is incomplete and there are a number of areas where we are awaiting further information and revised accounts from the Council to conclude our work. These include:

- Receipt of a revised set of financial statements, incorporating a number of changes including those relating to financial instruments;
- The conclusion of our work in respect of the pension transaction - a significant issue which has consumed significant Council and audit resource;
- Resolution of the national issue relating to the carrying value of infrastructure assets within the Council's financial statements.

The Council will need to reflect on the impact of the pension transaction within its Annual Governance Statement and we will review the other information to be published with the financial statements for consistency with our knowledge of your organisation once this is resolved.

2020/21 financial statements

We presented a [Revised 2020/21 Audit Plan](#) to the November 2022 Audit and Governance Committee. Although the 2019/20 audit opinion has yet to be issued, we began our fieldwork for the 20/21 financial statements at the beginning of December 2022.

We anticipate that the audit fieldwork will be completed in April 2023, and that we will present our findings to date in our [2020/21 Audit Findings Report](#). However we will not be able to issue the 20/21 audit opinion if the 19/20 audit opinion is still outstanding at that time.

2021/22 financial statements

The Department for Levelling Up, Housing and Communities (DLUHC) previously stated their intention to introduce secondary legislation to extend the deadline for publishing audited local authority accounts to 30 November 2022 for the 2021/22 accounts. The deadline for publishing audited local authority accounts for 2021/22 is extended to 30 November 2022 and thereafter changed to 30 September for years up to 2027/28.

We need to discuss and agree with officers how we both work to auditing the annual accounts within the normal local government cycle for the 2023/24 financial year. For the 2021/22 financial statements, we will

- present the [2021/22 Audit Plan](#) to the June 2023 Governance and Audit Committee;
- audit the 2021/22 financial statements in Summer 2023.

Accounting for infrastructure

The Code of Practice on Local Authority Accounting in the United Kingdom 2021/22 requires infrastructure to be reported in the Balance Sheet at historic cost less accumulated depreciation and impairment and that where there is 'enhancement' to the assets, that the replaced components are derecognised. Where authorities are not fully compliant with these requirements, there may be a risk of material misstatement.

Many authorities do not possess the records to be able to fully comply with the requirements. Following extensive consultation and discussions with interested parties DLUHC laid a Statutory Instrument in December 22 which should simplify accounting for infrastructure assets until the 2024/25 financial year. The Council will need to update its 19/20 accounts in accordance with the requirements of the statutory instrument; and ensure its accounting for infrastructure asset lives is in accordance with the shortly to be published CIPFA Bulletin 12

Progress at January 2023 (con)

Value for Money

The new Code of Audit Practice (the “Code”) came into force on 1 April 2020 for audit years 2020/21 and onwards. The most significant change under the new Code was the introduction of an Auditor’s Annual Report, containing a commentary on arrangements to secure value for money and any associated recommendations, if required. The new approach is more complex, more involved and is planned to make more impact.

We presented the [Interim 2020/21 and 2021/22 Auditor’s Annual Report](#), with our VFM commentary in it, to the November 2022 Governance and Audit Committee. We produced this report covering two financial years because:

- we have been unable to close the 2019/20 financial statements audit, and complete the 2020/21 and the 2021/22 financial statement audits; and
- the Council is facing a financial crisis in the medium-term, from 2023/24 and beyond, and we need to report on the Council’s VFM arrangements to the Committee in a timely manner.

Overall, we identified three key recommendations, in response to the significant weaknesses in Financial Sustainability and 11 opportunities for improvement, across the three Code’s criteria as follows:

Financial sustainability

- **Significant weaknesses in arrangements still exist in overall arrangements resulting in:**
 - three key recommendations;
 - four improvement recommendations made.

Governance

- No significant weaknesses in arrangements identified during our fieldwork, however
 - three improvement recommendations made.

Improving economy, efficiency and effectiveness

- No significant weaknesses in arrangements identified during our fieldwork however,
 - four improvement recommendations made.

Certification of the 2021/22 Housing benefit claim

We certify the Authority’s annual Housing Benefit Subsidy claim in accordance with procedures agreed with the Department for Work and Pensions (DWP). The certification work for the 2021/22 claim began in June 2022.

DWP extended the deadline for reporting the findings of this work to 31 January 2023. We will report our findings to the Governance and Audit Committee in our Certification Letter in March 2023.

Sector Update

Authorities continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

Audit Market Developments

Financial Reporting Council Report On The Quality Of Local Audit

In late October 2022 the Financial Reporting Council (FRC) published its inspection findings into the quality of major local body audits in England, which includes large health and local government bodies.

The Quality Assurance Department (QAD) of the Institute of Chartered Accountants in England and Wales (ICAEW) inspects a sample of local audits that do not meet the definition of a 'major' local audit and the FRC's report also includes a summary of their findings.

The FRC reported that 71% of Grant Thornton audits inspected (7 in total) were assessed as either good or limited improvements required.

This is a pleasing result and reflects on our significant investment in audit quality over recent years. The positive direction of travel over the past five years is illustrated below:

Our assessment of the quality of financial statement audits reviewed

The FRC also inspected our work on VfM arrangements at four bodies.

It is pleasing to note that all of these inspections were assessed as requiring no more than limited improvements (which is the same as the previous year).

As far as the ICAEW are concerned, overall, the audit work reviewed was found to be of a good standard.

Seven of the eight files reviewed (88%) were either 'good' or 'generally acceptable', but one file 'required improvement'.

The ICAEW identified one of our files as requiring 'Improvement' – but it should be noted that this was a 2019-20 file and therefore the learnings from prior years' review could not have been taken into account, an issue recognised by the ICAEW in their report to us.

The ICAEW found that our VfM work was good on each of the files reviewed, and they did not identify any issues with this aspect of the audit teams' work.

Whilst are pleased with our continuing improvement journey, we continue to invest in audit quality to ensure that the required standards are met.

The full report can be found [here](#).

Audit Market Developments (con)

Local Government External Audit Procurement

Public Sector Audit Appointments Ltd (PSAA) has recently announced the outcome of its national procurement of audit services across the Local Government sector.

This exercise covers the audits from 2023/24 to 2027/28 and covers the 470 local government, police and fire bodies (99% of eligible local bodies) that opted into the national scheme.

We are delighted to have been reappointed as the largest supplier of local government audit. The public sector has played a significant role within the firm for over 30 years and we remain committed to the success of the sector.

Our UK Public Sector Assurance (PSA) team employs 440 people, including 29 Key Audit Partners and specialists in financial reporting, audit quality, and value for money.

The team is dedicated to public audit work in local government and the NHS, with contracts with PSAA, Audit Scotland and over 100 health bodies. The Public Sector Assurance team is a regular commentator on issues facing the sector and oversees the firm's thought leadership, such as its series of publications on grants and public interest reports.

Mark Stocks, lead Partner for PSA at Grant Thornton, said 'This is a very welcome outcome and reflects our previous delivery as well as our ongoing commitment to invest in the public sector.'

Grant Thornton – Nearly 60 councils at risk of ‘running out of money’ next year

Grant Thornton has warned that the soaring cost of living combined with a decade of austerity could see up to a sixth of English councils fully deplete their reserves in 2023-24 without substantial spending cuts.

Research found that, as a result of higher inflation, councils are expected to have a cumulative budget deficit of £7.3bn by 2025-26 – an increase of £4.6bn since forecasts made at the beginning of this year.

Grant Thornton said that although reserves were bolstered by more than £5bn in 2020-21 due to higher government funding, these balances will “continue to unwind through the long tail of Covid-19” with close to 60 councils forecast to use all earmarked and unallocated reserves next year.

Without additional income, authorities would need to make savings of over £125 per person by 2025-26, equal to the average yearly spend on homelessness, sports and leisure, parks and open spaces, libraries and waste services.

Phillip Woolley, Head of Public Services Consulting at Grant Thornton, said: “Local government has faced unprecedented demands and pressures over the last decade and without action from both central government and councils, in the face of these inflationary pressures, the list of authorities in need of exceptional support looks set to grow quickly.

“Our research shows the additional Covid-19 funding, while critical to support immediate challenges, has not addressed underlying systemic issues or the precariousness of councils’ financial sustainability in the face of economic instability.

“Local authorities are also now facing the risk of interest rate rises, increasing debt financing costs and the real risk of reduced funding from central government, in response to the current economic turmoil facing the country. Without committed intervention from all sides, there is a risk that the sector levels down instead of up.”

Grant Thornton estimated unitary authorities would have the largest budget gap (£1.8bn) by 2025-26, but district councils would have the largest gap compared to net spending at 10.2%.

The firm added that austerity and changing policy demands have left councils struggling to innovate in their services and prevented investment in finance and procurement, diminishing the sector’s ability to tackle medium-term challenges.

Grant Thornton said additional government funding alone will not lead to improvements, and that councils should focus on improving governance and developing financial stability plans.

Joanne Pitt, local government policy manager at CIPFA, said: “With no spending review and no fair funding review, CIPFA shares Grant Thornton’s concerns about the financial sustainability of some in the sector.

“While there are actions local authorities can take to strengthen their own financial resilience, they are facing significant inflationary pressures and rising demand which makes this hugely challenging for the sector.”

Response to local audit consultation – Department for Levelling Up, Housing and Communities (“DLUHC”)

The Department for Levelling Up, Housing and Communities (“DLUHC”) has published its response to the local audit consultation. This follows the “Redmond Review”, which reported in September 2020.

The response confirms plans to establish a new regulator, the Audit Reporting and Governance Authority (ARGA), as the system leader for local audit within a new, simplified local audit framework.

Ahead of ARGA’s establishment, a shadow system leader arrangement will start at the Financial Reporting Council (FRC) from September 2022.

The consultation response also announces:

- Plans to make audit committees compulsory for all councils, with each audit committee required to include at least one independent member. This will create greater transparency and consistency across local bodies.
- ARGA will take over statutory responsibility for preparing and issuing the Code of Audit Practice (from the National Audit Office).
- A post-implementation review of the new Value for Money arrangements. The Code is a key part of the local audit system, and it is important to ensure that it helps to facilitate effective local audit. To allow time for the new arrangements to bed in the response proposes this is completed within three years.

The full response can be found here:

[Government response to local audit framework: technical consultation - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/consultations/government-response-to-local-audit-framework-technical-consultation)

The Value of Internal Audit – CIPFA

One of the key elements of good governance is an independent and objective internal audit service. Some organisations engage fully and reap significant benefits from the assurance, insight and expertise they bring whilst others pay lip-service to them and see their work as an administrative burden.

CIPFA's recent report, [Internal Audit: Untapped Potential](#), lifts the lid on internal audit in public services. For some chief financial officers and chief executives, this report confirms the value and contribution of internal audit teams with 87% of respondents recognising the contribution internal audit makes to their organisation. However, some leadership teams saw internal audit as providing a basic service at minimal cost.

Getting the most out of the function requires honest conversations and long-term planning. Maintaining appropriate skills and knowledge within the function is necessary to ensure high quality internal audit in public services are retained.

Culture and governance

The Audit Committee should monitor the delivery of internal audit and their output will be a key part of the annual work-plan. However, internal audit is not a substitute for risk management and should enhance the overall assurances received by management. Executives and Officers should engage with internal audit recommendations to ensure the organisation gains maximum value from reviews.

Capacity

Reducing internal audit days can lead to a lack of 'corporate grip' and not identifying issues at an early stage. This report raises concerns over the capacity of internal audit across the public sector. The profession needs to be valued and invested in to make it more attractive to new blood and for bodies to be able to attract the best candidates to their service.

Expectations

To maximise the impact of internal audit, a clear and aligned strategic audit plan and annual audit plan should be in place. This should be agreed with all stakeholders.

Future plans

Internal audit needs to adapt to the changing landscape, including risks such as climate change, digital and technological developments, cyber-security and ongoing financial and service pressures within their planning processes. For financial resilience and medium- and long-term financial strategies internal audit can provide vital independent assurance to decision makers to allow them to take on more risk and be more ambitious. Leadership teams need to be clear on what assurances they will require going forward.

For more information, [Rob Whiteman](#) share his views on this report.

Audit Committees: Practical Guidance For Local Authorities And Police – CIPFA

In October CIPFA published this guide, stating “This fully revised and updated edition takes into account recent legislative changes and professional developments and supports the 2022 CIPFA Position Statement. It includes additional guidance and resources to support audit committee members, and those working with and supporting the committee’s development.”

CIPFA go on to state “Audit committees are a key component of governance. Their purpose is to provide an independent and high-level focus on the adequacy of governance, risk and control arrangements. They play an important role in supporting leadership teams, elected representatives, police and crime commissioners and chief constables.

This edition updates CIPFA’s 2018 publication to complement the 2022 edition of the CIPFA Position Statement on audit committees.

The suite of publications has separate guidance resources for audit committee members in authorities, members of police audit committees, and a supplement for those responsible for guiding the committee.

New aspects include legislation changes in Wales and new expectations in England following the Redmond Review. All authorities and police bodies are encouraged to use the publication to review and develop their arrangements in accordance with the Position Statement.

The appendices include suggested terms of reference, a knowledge and skills framework and effectiveness improvement tools.”

The guide covers a number of key areas for Audit Committees, including:

- Purpose
- Core functions:
 - Governance, Risk and Control
 - Accountability and Public Reporting
 - Assurance and Audit arrangements
 - Ensuring focus
- Independence and accountability
- Membership and effectiveness

The guide can be purchased via the CIPFA website:

Audit and Risk Assurance Committee effectiveness tool – NAO

The National Audit Office (NAO) has published this tool which supports Audit Committees in assessing their effectiveness.

The NAO comment “Audit and Risk Assurance Committees (ARACs) play a crucial role in supporting the effective governance of central government departments, their agencies and arm’s-length bodies.

ARACs are operating in a highly challenging context. Government organisations are managing many short- and long-term risks and are required to be resilient to a number of pressures. This has created an environment where ARACs need to be dynamic and responsive to the changing risk profiles and demands of their organisations. ARACs can see this as an opportunity to work out how they can most proactively work with the Board and accounting officer.

Against this background, the NAO’s effectiveness tool provides a way for ARACs to assess their effectiveness against more than just the basic requirements. It provides aspects of good practice to give ARACs greater confidence and the opportunity to meet the requirements of their role.

The NAO’s effectiveness tool is a comprehensive way for ARACs to assess their effectiveness on a regular basis.”

The tool covers:

- Membership, independence, objectivity and understanding
- Skills and experience
- Roles and responsibilities
- Scope
- Communication and reporting

Although the tool is designed for central government Audit Committees it is also relevant to local government.

The guide can be found here:

[Audit and Risk Assurance Committee effectiveness tool - National Audit Office \(NAO\) Report](#)

Local government procurement and contract management: Lessons learned

More than a third of all UK government spending on goods and services is spent by local government, so it's important councils have effective arrangements for procurement and contract management.

The sector's ongoing focus on efficiency, and other priorities, such as net zero and local growth, mean that local government procurement has a rare opportunity to make a difference to the wider government agenda.

Our latest review of auditor reports shows that not all councils have the right governance arrangements in place, or deploy the appropriate skills and resource. Where things go wrong there are potentially significant risks to public money and service delivery.

The analysis sets out five key themes for ensuring good practice:

- Strategic planning
- Internal control
- Time, technical expertise, and people
- Commercial awareness
- Contract management

Local government procurement and contract management

Lessons learned from recent auditor reports

December 2022

The guide can be found here:
[Audit and Risk Local government procurement and contract management: Lessons learned | Grant Thornton](#)
