Sector Update	6

The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Authority or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

E David.Johnson@uk.gt.com

This paper provides the Audit and Governance Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit and Governance Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications <https://www.grantthornton.co.uk/en/services/public-sector-services/>

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at September 2023

Financial Statements Audit

The audit of the 19/20 accounts remains incomplete. We have written to the Council formally reaffirming our position set out in the July Progress Report in respect of accounting for the Pensions transaction. At the previous Audit and Governance meeting we discussed the prospect of whether 19/20 could be resolved by the issuing of a qualified audit report whereby we disagreed with management's accounting for the transaction but were able to consider an "except for" qualification with the rest of the accounts. Whilst this remains an option, our further legal advice renders this position untenable in terms of resolving the matter. Up to and including 2023/24, the Council set all annual budgets in good faith as the legal considerations over the Pension transaction remained unresolved. The Council recognises that the only way to resolve this matter, to the satisfaction of all parties, from a future budgetary perspective is to request a capitalisation direction from DLUHC. This process has commenced and we are committed to engaging constructively with all parties on this matter. We reported to Audit and Governance Committee our concerns about the transaction in July 2021 and new arrangements were put in place to prevent any recurrence. At the last meeting of Audit and Governance Committee we noted that no taxpayer funds had been lost as a result of the transactions. We will continue to report on progress on this matter to the Committee.

Audit Backlog proposals

DLUHC have written to all councils outlining a framework for clearing the backlog of audits. If we are able to resolve the issues set out above, it is probable that only the 21/22 audit of the financial statements will be impacted by DLUHCs proposals.

Value for Money

Under the 2020 Code of Audit Practice, for local government bodies auditors are required to issue our Auditor's Annual Report no later than 30 September or, where this is not possible, issue an audit letter setting out the reasons for delay. Despite the delays in the audit of the statutory accounts we issued Interim Auditors Annual Report covering 20/21 and 21/22 in September 2022.

NAO have issued Auditor Guidance Note 3 (AGN 03) in relation to Auditors' Work on Value for Money (VFM) Arrangements for 22-23 audits.

The ongoing delays in local audit continue to significantly impact audited bodies and the financial reporting and auditing process, and may therefore affect the timing of when the work on VFM arrangements set out in AGN03 is performed and reported.

The guidance states that the auditor should perform the procedures required as part of their work on VFM arrangements under AGN03 and issue their Auditor's Annual Report when their work is complete.

The Auditor's Annual Report should be issued no more than three months after the date of the opinion on the financial statements for all local government bodies.

We anticipate issuing our Auditor's Annual Report for 2022/23 by December 2023 and are currently making good progress.

Progress at June 2023 (cont.)

Other areas

Meetings

We meet with Finance Officers on a regular basis to discuss a range of issues including the pension transaction and how we progress the multiple open years of accounts. We also met with your Chief Executive on a quarterly basis to discuss the Authority's strategic priorities and plans and have been in recent correspondence with her over resolution of the accounting arrangements concerning the pensions transaction.

Events

We provide a range of workshops, along with network events for members and publications to support the Authority. Your officers attended our Accounts Workshop in February 2023, where we highlighted financial reporting requirements for local authority accounts and gave insight into elements of the audit approach.

Audit Fees

During 2017, PSAA awarded contracts for audit for a five year period beginning on 1 April 2018. 2022/23 is the fifth year of that contract. Since that time, there have been a number of developments within the accounting and audit profession. Across all sectors and firms, the Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing.

Our work in the Local Government sector in the period 2018/19 to 2021/22 has highlighted areas where financial reporting, in particular, property, plant and equipment and pensions, needs to improve. There is also an increase in the complexity of Local Government financial transactions and financial reporting. This combined with the FRC requirement that all Local Government audits are at or above the "few improvements needed" (2A) rating means that additional audit work is required.

We have reviewed the impact of these changes on both the cost and timing of audits. We have discussed this with your s151 Officer including any proposed variations to the Scale Fee set by PSAA Limited, and have communicated fully with the Audit Committee. The fees for the new PSAA contract, starting with the 23/24 year will be confirmed in November 2024.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and local government financial reporting.

Sector Update

Authorities continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

Call for sanctions for late accounts amid fears of 'more Wokings - public accounts committee (PAC)

The Commons' public accounts committee (PAC) published a report, [Timeliness of local auditor reporting](#), today, which highlights problems caused by the delays to local audit.

Just 12% of local government bodies received their audit opinions in time to publish their 2021-22 accounts by the extended deadline. The committee warned that the problem is likely to get worse before it gets better.

The report points out that there are no sanctions for failing to produce accounts on time, for either auditors or councils.

The PAC and others have been concerned about the implications of audit delays and Sir Geoffrey said cases like that of Thurrock Council and Woking BC demonstrate why this issue needs to be addressed. Both councils had years of unaudited accounts when they declared themselves effectively bankrupt due to excessive levels of debt.

Current local audit deadline ‘unachievable’- Grant Thornton

Low capacity in council finance teams and the failure to deal with historic accounting issues mean the current September audit deadline is unlikely to be met. The firm said the changes in recent years to council investment strategies have seen annual accounts become increasingly complex.

In [evidence](#) to a Public Accounts Committee inquiry, Grant Thornton said the increased workload and pressure on resources have complicated recruitment and compounded delays.

The auditors said it is unlikely firms will be able to meet the 30 September deadline for publishing opinions on 2022-23 financial statements, because they are still working on previous years’ accounts.

The firm said one of the key issues causing delays is the lack of consensus over areas of audit focus, specifically over how land and buildings are audited.

“Too much audit resource is absorbed in dealing with longstanding financial reporting issues at poorly performing bodies,” the firm said.

In certain instances, audits are open as far back as 2017-18.

“Perhaps more importantly, there has not been enough debate with the sector on the purpose of local audit and the enhanced audit scrutiny it faces.

“This is particularly the case with the audit of property. Until these matters are resolved we do not consider that the September deadline is achievable.”

Grant Thornton said that while audit firms can be sanctioned by the Financial Reporting Council for failing to comply with regulations, there are currently no punishments for public bodies that fail to meet requirements.

It said there should be interventions for audited bodies that show “significant failures in financial reporting and an unwillingness to improve”.

In its evidence the firm blamed a lack of council funding to bolster finance teams for a reduction in the quality of reporting, causing further delays.

“Unfortunately, the quality of too many financial statements and working papers are not adequate,” Grant Thornton said.

“Improvement in accounts preparation, and recruitment and investment in finance teams is essential if local government is to prepare consistently high-quality draft accounts and respond to the challenges presented by an enhanced audit regime.”

In December, local audit procurement body Public Sector Audit Appointments revealed that [only 12% of local government audits](#) for 2021-22 were completed by the 30 November deadline.

PSAA said that an alarming 630 opinions were outstanding from both 2021-22 and previous years, and the level of opinions completed on time has declined significantly from the 45% in 2019-20.

DLUHC to implement its new proposals to clear audit backlog by year-end

A range of proposals and actions to address the backlog of local audits in England has been set out by the Department for Levelling Up, Housing and Communities (DLUHC).

These include setting statutory deadlines and issuing qualifications and disclaimers of opinion in the short term.

[The proposals](#) have been agreed in principle with key partners across the local audit system, DLUHC said. The National Audit Office (NAO) is considering whether to develop a replacement Code of Audit Practice to give effect to the changes, the department added.

In addition, DLUHC is considering whether legislative change is needed to set new statutory deadlines for local bodies to publish accounts to mirror the proposed changes to the Code of Audit Practice.

Legislative change may also be needed to address any knock-on effects of the proposals which may impact the audit of opening balances within the accounts for future years, the department said.

Under these proposals, section 151 officers will be expected to work with Audit Committee members (or equivalent) to approve the final accounts by the statutory deadline in order for the audit opinion to be issued at the same time.

Sustainability reporting in the public sector - CIPFA

Sustainability reporting in the public sector is in its infancy, and there is an evolutionary journey to be embarked upon – sooner rather than later.

Sustainability reporting is the recording and disclosure of an organisation's environmental impact caused by its activities. It has been widely adopted in the private sector, but in the public sector it is not the same story.

Having a clear understanding of the overall carbon footprint of the public sector is vital if we are to tackle climate change, find solutions and encourage sustainable development.

Public sector sustainability reporting: time to step it up' provides answers and positive steps to addressing the most pressing challenges around public sector sustainability questions. The current patchwork of public sector sustainability reporting frameworks are inconsistent and confusing. The report draws on already existing standards and frameworks that are relevant and useful to the public sector, rather than trying to reinvent the wheel.

Alignment to financial reporting

The report recommends an approach that aligns sustainability reporting with the wider practice of financial reporting. The four key areas in this approach are governance, the management approach, performance and targets, and strategy. 'Public sector sustainability reporting: time to step it up' provides public finance professionals with a good understanding of what information needs to be disclosed and the process in producing a high quality report.
