Response: (for completion by City Council officers and Cabinet Members / Chairs)

We are communication with Supply Authority to have wall rebuilt and shrubs planted on adjoining land in Park. The works within the Park (Installation of SUDs) is designed to have a positive impact on water contamination of highway, this work is approximately 75% complete with completion date approx. end January 2024. At this stage we will aim at having wall repaired by 3rd party.
