SECTION FIVE: OUR EQUALITY OBJECTIVES

Equality objectives	Implications	Mitigation Actions	Timescale and responsible department
 Work together in partnership to: promote equality, diversity and inclusion facilitate community cohesion support people with different backgrounds and lived experier to get on well together 	Creating a Safer School Street can be seen as positive in this regard as it encourages parents and carers to travel actively or spread the parking more equally across the area, rather than on the street immediately in front of the school. This benefits the majority who are already walking to school, as well as the residents who have raised concerns about inconsiderate parking. There is also more space for parents/carers or children with disabilities who need to drive and are exempt from the road closure, reducing potential conflict with residents.		
Give specific consideration to care experienced people to improve their outcomes, including access to training employment and housing.			

Build and develop a diverse workforce that represents the community and citizens it serves.		
Support diverse communities to feel confident to report crime and anti-social behaviour, including hate crime and hate incidents, and work with partners to ensure Plymouth is a city where everybody feels safe and welcome.
