3. Key achievements to date

3.1 The panel has now met on two occasions. Meetings have been well structured, managed efficiently and well attended by panel members. A positive contribution has been made to support an effective strategic and operational overview, in particular the following achievements have already been made:

- The Chair has extended an open invitation for any panel member to attend pre-meeting planning sessions in order to improve transparency and include all panel members in proactive scrutiny.
- The panel has approved a comprehensive work programme which, in addition to focusing on Council services, looks at Partnership initiatives and performance.
- The Chair and Vice-Chair continue to meet regularly with the Chief Executives of NHS Plymouth and Plymouth Hospitals Trust in order to develop partnership working.
- The panel is managing and resolving its tracking resolutions promptly.
- The panel heard of the work being undertaken to promote and increase welfare benefits and tax credits take-up in the City and resolved to raise the issue of debt alerting opportunities with the Chief Executive of Plymouth Hospitals Trust. As a result, the Trust agreed to liaise with the City's Community Inclusion Unit to look at possible alerting/signposting opportunities at Derriford Hospital.
- The panel has been quick to understand the scope, remit and key performance measures of the three CIP's that it is responsible for scrutinising. Lead Officers and Cabinet Members from each of the three CIP's have already met the panel, presented the CIP's and been subject to scrutiny, thus laying the foundation for ongoing review and scrutiny of progress against milestones and key performance measures.
- The panel wishes to increase its co-opted representation and has written to the Board of Directors for NHS Plymouth and Plymouth Hospitals Trust inviting a non-executive director of each to join the panel.
- The panel was pleased to receive proposals from the South West Specialised Commissioning Group regarding service development proposals for delivering surgical procedures and associated treatment to patients with soft tissue sarcoma. The proposed approach and intention to designate two soft tissue sarcoma centres in the south west region was both welcomed and supported by the panel.
- The panel has engaged with the South Western Ambulance Service NHS Trust over its Foundation Trust consultation and has provided a formal written response in full support of the Trust's proposals.

- The panel has continued to monitor Plymouth Hospitals Trust performance with regard to provision of maternity services and hygiene standards following poor inspection results. This has involved a visit to the maternity services unit by the Chair and Vice Chair and the Chair's involvement with the tendering process for the Hospital's Hotel Services Contract.
- The panel has met with the Director for Community Services and discussed the vision for the Council and how the Department's function will help to deliver the strategic priorities.

4. On the Horizon

4.1 The panel has received an update from the Director of Community Services, Chief Executive of the Plymouth Primary Care Trust and the Chief Executive of the Plymouth Hospitals Trust on the current financial and performance of all three organisations with a view to setting the following objectives in the workplan:

- To review the findings of the Care Quality Commission Annual Performance Assessment of Adult Social Care
- To review the findings of Care Quality Commission – Annual Healthcheck
