- 1.0 Since the report was finalised a further 11 letters of representation have been received in support of the proposed development and 3 in objection. The issues raised are already listed in the main report.
- 2.0 It is proposed to amend condition 6 to read as follows (additional text in italics):
No development shall take place until details of the design, layout, levels, gradients, materials and method of construction and drainage of all roads and footways forming part of the development have been submitted to and approved in writing by the Local Planning Authority. *The development shall not be brought into use until that part of the service road which provides access to it has been constructed in accordance with the approved details,*
- 3.0 It is proposed to amend condition 16 to read as follows (additional text in italics):
No development shall commence on site until plans have been submitted to and approved in writing by the Local Planning Authority *for the proposed access arrangements and highway improvements at the junction of Outland Road/Segrave Road to include provision of a Toucan crossing and MOVA traffic control. Furthermore MOVA will be required at the junction of Outland Road and the P&R exit and also at Mayflower Drive. The development hereby permitted shall not be occupied or brought into use until the highway works, in accordance with the approved plans, have been completed.*
- 4.0 It has been brought to officer's attention that the following sentence on page 43 (under section titled Drainage) of the report is not clear: *Ultimately this discharges into the Pennycomequick culvert which also runs along the eastern edge of the park.* It is therefore proposed to replace it with the following sentence: *The combined drainage system then flows south (underground) from this area along the eastern edge of the park.*
