Leader	Support the recommendation, although work is already underway. Growth and Health and Wellbeing Boards currently addressing city priorities with partners. Revised Corporate Plan will summarise progress in July 2013	Businesses and partners are showing their commitment to the job creation and growth agendas in a number of ways. Many companies have signed up to the 1000 Club which has now helped over 1,000 people get in to work or employability training. There have also been hard investment decisions – such as that of Akkeron Group, Hymec, God TV for example – and the Growth Board has explicitly committed to the growth agenda by agreeing that the Local Economic Strategy (LES) review will be about furthering the growth agenda; by December 2013 there will be a reviewed LES which clearly identifies not only growth objectives / projects but who specifically will take responsibility for delivering them. In many instances it will not be the Council, but other organisations within, and outside of, the Growth Board.

These figures are also available online.
6	Ensure that plans to address staff engagement are prepared as part of the service planning process, include targets and timescales, and are available for scrutiny.	Chief Executive	This is a commitment already made to scrutiny, and will form part of service planning arrangements from April 2013	Four engagement strands (political, staff, customer / community and partners) will be running through the service planning and blue print development as part of the on-going work that frames our values around everything we do. Benchmarks are available from existing staff surveys; however we will be looking to undertake more targeted work as part of the overall OD approach.

For 2013/14, funding has been secured from the Police & Crime Commissioner for the partnership element of the budget required for Domestic Abuse service commissioning, as agreed by Cabinet. We are awaiting confirmation of the Police & Crime Commissioner's commissioning intentions for 2014/15 onwards.
