The effects of the expansion of Plymouth University and its students on the surrounding residential areas		2	<p>The expansion of Plymouth University over recent years has resulted in an increase in the student populations living in the surrounding areas to the University. The increase in students living in Mount Gould, Mutley, Greenbank and Lipson areas has had detrimental consequences which have predominantly been felt by local residents who have regularly had to deal with an increase in issues of Anti-Social Behaviour, noise, litter and reported crimes.</p> <p>The review will seek to analyse the effects of an increasing student population on the local surrounding areas to establish if a link exists between increased student populations and an increase in issues of ASB, noise, litter and reported crimes. To include a review of a previous piece of work completed in 2012.</p>
