Dear Dame Suzi,

I am writing on behalf of the Health and Wellbeing Board as Chair to congratulate you on the Fairness Commission final report. The work undertaken by the Fairness Commission was exceptional and the Health and Wellbeing Board will look at how to utilise a whole systems approach to the Commission's recommendations and will now –

- ensure that the Health & Well Being Strategy Action Plan has been cross-referenced to the Fairness Commission recommendations and appropriate actions included;
- ensure that the Commission Strategies from NEW (Devon) CCG, Plymouth City Council and other agencies are integrated, budgets are pooled and the Fairness Commission recommendations are addressed in the strategies developed and implemented;
- ensure a systems leadership approach to all health and well-being work includes an approach to dealing with fairness issues;
- continue to drive integration of health and social care commissioning and delivery and ensure fairness recommendations are considered and dealt with through the integration programme;
- ensure the Joint Strategic Needs assessment and the analysis/intelligence available will be used to deliver evidence based/outcomes based commissioning strategies.

The Commission's report has highlighted the some of the considerable challenges that face us as a city, we would like to thank you for your commitment to the work of the commission and welcome the recommendations.

Yours sincerely,

Councillor Sue McDonald
Cabinet Member for Children, Young People and Public Health
Ward Councillor for St Peter and the Waterfront
