When has been targeted, cor marked improvement community events in N neighbourhood's "com increased from 41% c	their local area is a place where ethnic backgrounds get on well on changed to specifically ask re community engagement work nmunity cohesion has shown a e.g. after holding a series of	This question reverted to the original 'Plymout place where people from different backgrounds on well together' in the 2014 Health and Wellb survey. 53% of respondents stated that they fee 'Plymouth is a place where people from different backgrounds get on well together'. This repress no change from the result in 2012 when the slig different ethnicity question was asked in the Plymouth survey. Only 16% disagreed with this statement with a sizeable 31% neither agreeing disagreeing. 53% did however represent a sizea fall from 2009 performance, this fall is being investigated and may be in line with the national trend.Direction of current trajectory?Static

Confident Plymouth

We will work towards creating a more confident city, being proud of what we can offer and building on growing our reputation nationally and internationally.
