

EQUALITY IMPACT ASSESSMENT

St Budeaux Library (as part of the proposed Plan for Libraries)

STAGE I: WHAT IS BEING ASSESSED AND BY WHOM?

What is being assessed - including a brief description of aims and objectives?

ST BUDEAUX LIBRARY

St Budeaux Library and the services that run from it are being assessed in this EIA. As part of the Plan for Libraries proposal, **St Budeaux Library has been earmarked for staying open.**

St Budeaux Library has 2730 active users which is 6% of the total active library users.

The aims of the Pfl proposal are to deliver five universal offers (in line with Society of Chief Librarians and Libraries Taskforce). These are Reading, Information, Digital, Health and Learning. These will be delivered through our objectives:

- Our online offer is accessible 24 hours a day, 365 days a year and provides an online library catalogue, eBooks, audiobooks and magazines plus a range of premium online resources
- Our library buildings will be fit for purpose and include meeting spaces so we are able to offer a full range of services based around the offers of Reading and Literacy, Information and History, Digital, Health and Wellbeing and Learning. They will be clean, modern and welcoming and run by friendly and trained staff
- Our outreach offer will increase. Investment in technology will mean we are able to take the library into communities, providing a pop up library with click and collect activities and services. This will include our Home library Service for housebound users. The Home Library Service is for Plymouth residents who want to borrow books and audiobooks but who are unable to get to a library; either through ill health, injury or disability. This free service allows access to the library and books as well as a regular visit from a friendly face.

Rationale for staying open

Those libraries ranking in the top 7 of the scoring criteria are detailed in the proposal as libraries that would be retained and operate an enhanced service to customers. As a result of retaining this library as part of our estate it may result in additional usage and footfall from those residents displaced by the closure of their nearest library.

In respect of coverage we aligned ourselves to the four geographical areas (localities) as defined by one of our key partners

Livewell Southwest.

Using existing best practice each of our libraries has been assessed against the following criteria:

- Proportion of population in ward aged 0-17
- Proportion of population in ward aged over 60
- Total transactions (book issues)
- Indices of Multiple Deprivation (IMD) score 2015. IMD is a measure to show deprivation across the country, using a variety of measures (for example barriers to housing, or local area crime), rather than just traditional poverty measures.
- Total visits
- Cost per visit
- Computer Hours used
- Total event attendance
- Suitability and sustainability of building (ability to deliver our new offer)

All criteria had an equal weighting, and each library was ranked 1 to 17 against each criteria. With 17 being the lowest value scoring. **St Budeaux ranked number 7 out of 17 libraries.**

This area houses the city's largest university and student accommodation is abundant which will partly account in for this variance. Students tend to use the University library facilities, therefore no adverse impact is expected</p>	<p>Promote click and collect service which will be available at outreach venues</p> <p>Promote the outreach locations where library services will be delivered</p> <p>Reassess staffing levels to provide additional capacity for in-library and outreach offers if as a result of the closures there is a significant displacement of users from of libraries elsewhere.</p>

		<p>Events at this library cater for a wide age range and the only demographic targeted with any exclusivity via events are parents and children via Rhymetimes and Storytimes, and Active Steps events aimed at the Over 50s. Other events cater for all ranges.</p> <p>There may be an adverse impact to users if there is significant displacement to this library from the libraries that are closing. For example more demand on services like public access PC's for young or older people, or demand for targeted children's activities e.g rhyme time etc.</p> <p>However this impact will be reduced due to the commitment that has been made for the activities and services which currently run from these libraries to be provided by an alternative library, or through the online and outreach offers.</p>
