Commissioning Intentions plan 2022/23

Aligning spending to Police and Crime Plan objectives

Safe | Resilient | Connected

Strategic commissioning to achieve the Police and Crime Plan Priorities

The commissioning intentions plan for 2022/23 details the range of commissioning undertaken to support the delivery of the Commissioner’s statutory duties and the priorities within the Police and Crime Plan 2021/25. Therefore, the five priorities of this commissioning intentions plan are as follows:

- **Violence**
- **Anti-social behaviour**
- **Drugs**
- **Road Safety**
- **Victim Services**

The term 'commissioning' is the cycle of assessing need and, where identified, designing and securing the appropriate service to respond. To mirror good commissioning practice observed in other commissioning authorities, the Commissioner is committed to reducing short term funding, in favour of longer-term sustainable funding which forms the basis of our commissioning framework.

Commissioning framework

The framework consists of five commissioning schemes and their objectives, outlined below:

Scheme	Objectives
A) Victim Services	Enables the Commissioner to fulfil her statutory duty to commission local victim services.
B) The Police and Crime Commissioner's Impact Scheme	The Commissioner's Impact Scheme supports the Commissioner by identifying and funding services, projects and approaches which help to deliver the police and crime plan priorities. The objective of the scheme is to achieve longer-term impact in local areas by offering sustainability, durability and a shared commitment to achieving impact through commissioning.
C) The Police and Crime Commissioner's Community Grant Scheme	Allocation of small yearly grants to the voluntary and community sector to implement place-based services that address local priorities and police and crime plan themes.
D) Pooled Budget for Youth Offending Teams	Makes core funding available to enable the delivery of Youth Offending Teams across Devon, Cornwall and the Isles of Scilly
E) Evidence-based Practice Scheme	Enables investment in evidence-based practice to reduce crime and improve community confidence. Funding is ring-fenced to support evidence-based practice and to build a foundation of research which helps to influence commissioning decisions, service delivery and strategic objectives.

The 2022/23 commissioning budget

For the next financial year 2022/23, the total commissioning budget across the OPCC is £7,985,039 which works on the assumption that the Ministry of Justice (MoJ) Grant for Victim Services (not released at the time of writing) is the same as the previous year.

The budget is made up of a £4,140,000 commissioning grant allocated directly by the Commissioner for the purpose of commissioning services for the benefit of Devon, Cornwall and the Isles of

Scilly, £2,845,039 from the MoJ Victim Services Grant, which includes the Childhood Sexual Abuse (CSA) and Childhood Sexual Exploitation (CSE) Grant, additional funding for Independent Sexual Violence Advisors (ISVAs), Critical Support Fund for Victims and Keyham Victim Support funding and £1,000,000 for the Serious Violence Prevention Programme which was announced in February 2020 by the Police and Crime Commissioner and Chief Constable.

	2021-22	2022-23
Police and Crime Commissioner Commissioning Budget	£4,043,000 (Included £300,000 uplift)	£4,140,000 (Including £200,000 uplift)**
MoJ Victim and Witness Grant (CSACSE Grant)	£3,215,385*	£2,845,039
Serious Violence Budget	£1,000,000	£1,000,000
TOTALS	£8,258,385	£7,985,039

*Included the following additional funding; £305,403 Ministry of Justice Covid Uplift Fund, £570,599 additional Independent Sexual Violence Advisors (ISVA) and Independent Domestic Violence Advisors (IDVA) funding, £96,543 Covid Critical Support Fund and £182,721 Keyham Victim Support Fund.

** The Commissioner has drawn down £200,000 from reserves to support the continuation of the domestic abuse perpetrator scheme for 2022/23 only.

Testimonial from Victim Support – Strategic Delivery Partner for Victim Services

“The first year of the Strategic Delivery Partnership has been incredibly positive from Victim Support’s perspective. We have listened to victims and providers, learning about excellent support that is being delivered and using a restorative lens to assess impact and identify areas for improvement. We have established shared values and ways of working as a Strategic Delivery Partner to the OPCC, as well as the commissioner of services provided by the Victim Care Network.”

“Our approach has been to continue to support organisations on the Network to deliver services whilst identifying and filling gaps in provision, for example commissioning Disability Cornwall to compliment the work of Living Options Devon. In listening to victims, we understand the value of involving those with lived experience and ensuring that people are not ‘done to’ but are supported and empowered.”

“We are, together, shaping a vision for future services that are trauma-informed, victim-led and available to everyone affected by crime. This desire to respond and innovate was demonstrated through a Theory of Change workshop at our summer (in person) network event attended by over 75% of the Network providers. This identified future opportunities such as a single needs assessment, shared training and capacity building opportunities. The Network is on course to support more victims this year than ever before.”

“The strength of the Partnership was demonstrated in the summer of 2021 after the tragic murders in Keyham. In our role as Strategic Delivery Partner, we were able to represent charities supporting those affected at strategic meetings led by Plymouth City Council. This enabled us to support the OPCC to successfully bid for over £300,000 of additional funding which we distributed through grants to existing Network members such as Young Devon as well as new Network member Jeremiah’s Journey. This was an excellent example of how our role was able to add capacity and strength to the system of providers ultimately resulting in better support for those affected.”

“The most significant factor in the success of this year has been the shared focus and commitment to providing the best possible service to those affected by crime across the peninsula. This clarity of vision, not just between Victim Support and the OPCC but across all the organisations supporting victims of crime, makes us incredibly excited about the future for this innovative partnership.”

Police and Crime Plan Commissioning Priorities

Violence

Violence remains one of the biggest challenges we face, and we know that supporting families and young people affected by violence reduces the chances of those people becoming victims or perpetrators of violence later in life. The four-year, £1m a year Serious Violence Prevention Programme takes a public health approach to preventing and tackling the forms of violence most evident across the region and in our communities. The Strategic Needs Assessment commissioned by the programme highlights a broad range of interconnected risk factors that face a number of children and young people across the peninsula and which present opportunities for targeted prevention work.

Serious Violence Programme – Strategic Objectives

Our overarching objective is to break the cycle of violence, and we seek to do this by focusing on three strategic priorities:

People: providing quality support available for individuals involved in, or on the edge of violence and which improves their life chances. This will include activity to reach the following outcomes:

- Improved life outcomes and reduced recidivism rates for individuals at the highest risk of violence.
- More young people who have been exposed to violence (including as victims) provided with a quality diversion or intervention with a reduction in use of poorly evidenced responses (e.g. school exclusions).
- More young people who are vulnerable are provided with resilience building opportunities.

Partners: preparing the partnership to work together to meet the forthcoming Serious Violence Duty through sharing accountability, data, and expertise. This will include activity to reach the following outcomes:

- Partners increasingly come together to work as a system, exhausting all options when an individual is facing crisis.
- Partners are better equipped, able to identify people at risk and take responsibility in addressing them.
- Practitioners are trained to recognise and respond to trauma and adverse childhood experiences (ACE) in their own settings and are transparent in their outcomes.

Places: scaling evidence-based approaches that meet local needs and address local gaps. This will include activity to reach the following outcomes:

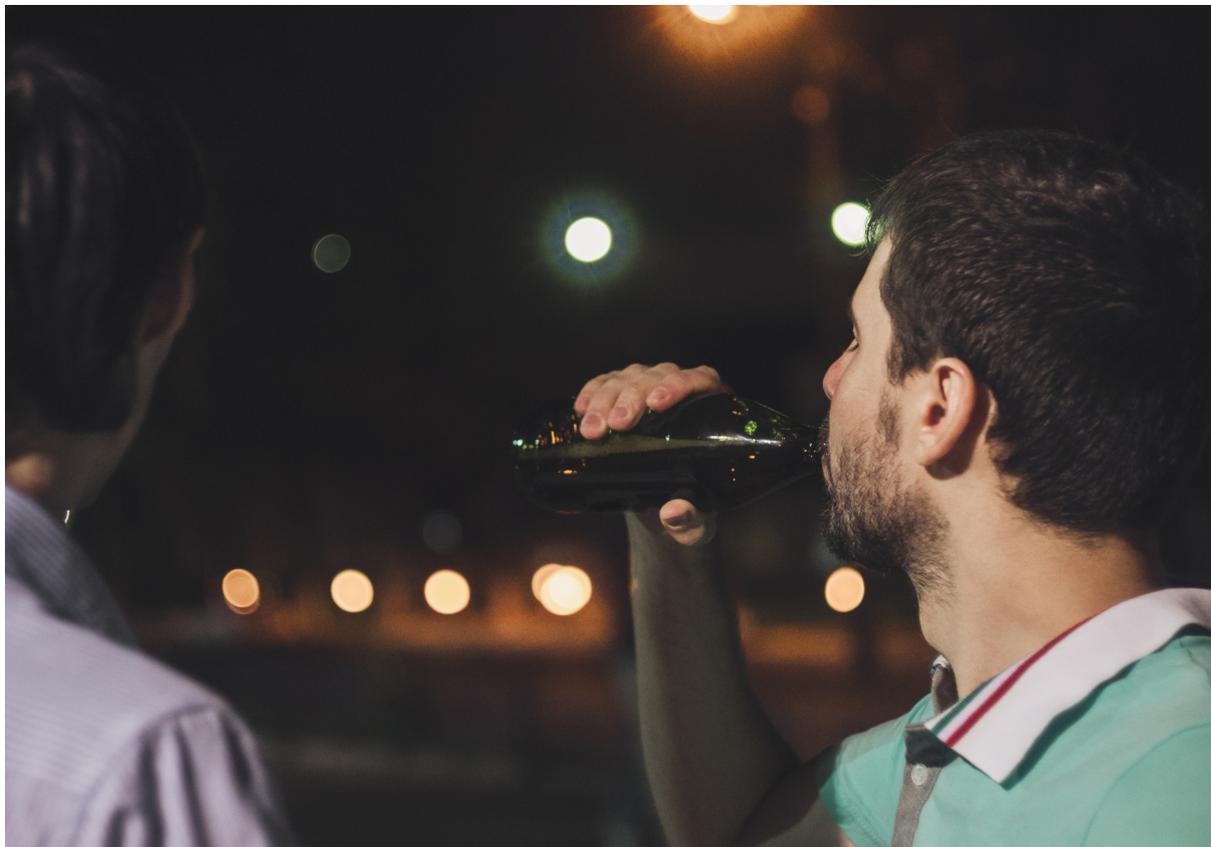

- ‘Hotspot’ institutions and places are identified and supported through a mix of prevention and disruption activities.
- Launch of local strategies that identify priorities and monitor the implementation of mitigation efforts.

- Improved community awareness of how violence manifests itself and what local support is available to address it.

The Commissioner and Chief Constable continue to commit £1,000,000 funding for the serious violence prevention programme in 2022/23 and plan the following **new** services which will support the Commissioner’s commitment to tackling violence.

New service descriptors	Indicative budget	Objectives/outcomes
Local Partnership Fund	£120,000	<ul style="list-style-type: none"> • This is of a total of £800k provided between 2022 and 2024 to support Local Authorities and community safety partnerships to meet the programme’s strategic priorities and deliver the Serious Violence Duty.
Force Investment	£259,000	<ul style="list-style-type: none"> • Support the delivery of the Homicide Prevention Strategy, including launching a pilot perpetrator review project (£50k) • Launch the Law Enforcement in Public Health (LEPH) Link (£64k) • Enhance the capacity of diversion and intervention to work with under 25’s (£145k)

Antisocial behaviour (ASB)

Antisocial behaviour in all its forms is a very visible sign of disorder in our communities and is closely linked to perceptions of safety, satisfaction with the local area as a place to live, and confidence in local services. In its most persistent and serious forms anti-social behaviour can have a significant impact on health and wellbeing.

Our commissioning needs assessment found that a multifaceted approach is needed to tackle ASB which focuses on awareness raising, prevention, intervention and support. The Commissioner therefore commits £480,000 funding to support this priority, with the following new services planned to support this commitment;

- Reclaim town centres for the general public from those undertaking ASB and rebuild public confidence in the public realm to make our city, town and village centres more resilient to ASB
- Ensure that victims of persistent and severe ASB in our communities are heard and know how to get help
- Work with policing and partners to deliver a robust and targeted partnership approach, using the range of powers available to all partners

New service descriptors	Indicative budget	Objectives/outcomes
ASB Youth outreach service to respond to ASB where there are identified areas and times of concern	£250,000	<ul style="list-style-type: none"> • Prevent Youth ASB escalating to criminality • Reduce vulnerability to exploitation and abuse • Engage place based, community solutions to tackle local issues • Engage young people in positive engagement opportunities and approaches that draw them away from ASB • Work with young people to design the services and outcomes
ASB mediation service	£30,000	<ul style="list-style-type: none"> • To reduce conflict and prevent escalation to the police • Enable communities to access the self-help tools they need to prevent ASB escalation • Increase options for conflict resolution and crime reduction
ASB Victim support service	£200,000	<ul style="list-style-type: none"> • Support people affected by ASB to cope and recover • Provide emotional and practical advice and guidance to enable positive outcomes

Drugs

Substance misuse is often linked to an individual’s response to a past trauma or other unmet needs. Complexity and vulnerability continue to be increasing themes amongst drug users, with significant cross over in mental health issues, childhood trauma and abuse, domestic abuse, housing difficulties and involvement in the criminal justice system.

There are clear links between substance misuse and other priorities set out in the Police and Crime Plan, highlighting the significance of drugs as a cross-cutting theme in crime, policing and criminal justice. This includes links to organised crime, victims, serious violence, child exploitation, road safety and business crime. This commissioning intention plan therefore details the following funding which will

particularly support the Commissioner’s commitment to implementing the ADDER approach, which focuses on addiction, diversion, disruption, enforcement and recovery.

Therefore, in 2022/23 the Commissioner makes £334,483 available to co-commission drug treatment interventions which will directly benefit people in the criminal justice system. In the spring of 2022, early scoping work will commence to look at what regional co-commissioning opportunities exist with our criminal justice partners.

This assessment will report through to the regional reducing offending board and from 2023/24 onwards the Commissioner will use this funding to commission with other criminal justice partners. In the interim, this funding will

be used to continue pre-existing pooled budget agreements with Cornwall Council, Plymouth City Council and Devon County Council – offering twelve months of funding into current treatment services whilst the regional commissioning work delivers this

commissioning objective. Funding is also made available to Torbay Council to continue work established in 2021/22 to prevent anti-social behaviour and reduce drug use.

Service Descriptor	Indicative budget	Objectives/Outcomes
Cornwall Council	£130,436	<ul style="list-style-type: none"> • Delivery of the community sentence treatment requirement and community outreach services for criminal justice service users • Prevention of offending through support for criminal justice sanctions • Reductions in substance misuse
Plymouth City Council	£93, 575	<ul style="list-style-type: none"> • Delivery of drug services though Plymouth City Council Alliance Contracting • Prevention of offending, through multi-needs contracting and local provision
Devon County Council	£60, 472	<ul style="list-style-type: none"> • Delivery of the Young Persons Substance Misuse Services (Y-Smart) • Prevention of offending • Early intervention for young people / including education
Torbay Council	£50,000	<ul style="list-style-type: none"> • Continuation of work established in 2021/22 to prevent anti-social behaviour and reduce drug use. • Improve community safety • Reduce offending and anti-social behaviour

Road Safety

Devon, Cornwall, and the Isles of Scilly has some of the safest roads in the UK, but the effects of every death or serious injury on our roads is devastating for the bereaved, their families and loved ones, and for those who support people who are seriously injured, some of whom may have long-term life-changing injuries.

Our commissioning needs assessment found that the needs of road traffic victims do differ to those of many other crimes. Road crashes are violent, sudden, and often end and devastate lives far too prematurely. Road crash victims are often young leaving devastated parents and siblings. Road crash victims are also parents, leaving children without carers.

The traumatic grief suffered by people bereaved by road crashes can be overwhelming and, in some instances, lead to long-term, negative outcomes, for example conditions such as serious depression and post-traumatic stress disorder (PTSD). As well as traumatic grief, a death on the road can cause serious financial hardship and a death can irrevocably alter a family's future in many ways.

As not all road traffic victims are victims of a crime they are currently excluded from accessing current victim support trauma services. Working in partnership with Vision Zero, this commissioning intention plan will commission a new post collision care offer.

New service descriptors	Indicative budget	Objectives/outcomes
Post Collision Victim Support Offer	To be confirmed from the Vision Zero Partnership	Trauma responsive post collision support enabling those affected to cope and recover Emotional and practical support, including bereavement counselling where required.

Victim Services

The harm caused by crime can be life-changing and sometimes catastrophic. The impact of the harm caused can often last a whole lifetime and can have a life altering impact as a result of the trauma caused. It is therefore important that people affected by crime of any age, can have access to specialist support in Devon and Cornwall to help them when they need it.

The Commissioner has the responsibility to commission victims' services that support victims to:

- Cope with the immediate impacts of crime
- Recover from the harm experienced
- Provide greater confidence to victims to help support a criminal action

Within our commissioning model, the commissioning of victim care services is contracted to Victim Support our strategic delivery partner for victim services. Having successfully transferred the multi-crime provision to Victim Support in 2021/22, this commissioning intention plan moves to the transition of specialist domestic abuse and sexual violence support services to Victim Support from 2022/23 onwards. As a result, Victim Support will work with Local Authority and NHS England Commissioners to develop a peninsula wide commissioning strategy for support services to prevent duplication, enable system improvement and provide the very best

care for people who need support. In addition, this commissioning intentions plan has identified a budget uplift for Victim Support to implement two new services. One for children who witness domestic abuse and one for police officers and police staff who experience this form of harm but feel inhibited in accessing support because of their professional status.

This commissioning intention plan therefore details the following budget milestone for Victim Support and the planned new victim care support services being developed in 2022/23.

New service descriptors	Indicative budget	Objectives/outcomes
Specialist Domestic Abuse and Sexual Violence Services	£1,357,305	<p>Support to help people affected by domestic abuse and sexual violence cope and recover</p> <p>Trauma informed services for victims of reported and non-reported crime</p> <p>Trauma therapy, emotional and practical support and risk planning</p>
Domestic Abuse and Sexual Violence Specialist Support Budget Uplift	£342,167	<p>Support for children witnessing domestic abuse</p> <p>Specialist support for police officers and police staff who have experienced domestic abuse, sexual violence, harassment and abuse</p> <p>Increased budget to respond to known demand and increased need</p>

Commissioning 2022/23 overview

11 new initiatives and contracts planned
£462,467 increase in commissioning budget for people affected by domestic violence and sexual abuse
£784,920 new investment for victims

Additional commissioning burdens and requirements:

- Victim Support for young people who witness domestic abuse
- Increased financial support for the new Sexual Assault Referral Centre
- Serious Violence Duty

Core Commissioning Information

This Commissioning Intentions Plan sets out the Commissioner's approach for making decisions about which interventions will be commissioned, and the approach used for updating existing service specifications or creating new ones. It is intended to ensure funding is allocated fairly and proportionately, with due regard to the competing demands on available funding to provide the most effective, fair and sustainable use of resources for specialised services.

To achieve this, the commissioning team conduct an initial assessment of need, drawing together information from multiple sources of data available from our partners, strategic assessments, national and local data sources, public surveys and the views of people who will use the service. The next phase results in the commissioning team writing the specifications for a new service and beginning the procurement process. During this phase, if services

are decommissioned due consideration is given to accessibility, equality impact and unintended consequences, identifying actions and activities to mitigate risk and safely end services.

The Commissioner will not generally commission any services outside the Commissioning Intentions Plan, although the exact details of service provision may vary in line with the nature of the funding streams advertised and the priority identified. Where there is an emerging issue this will be considered on its merits and a specific decision made and published. Likewise, the Commissioner will not provide direct grant funding to community initiatives from commissioning resources which are outside this plan. Community organisations and initiatives will benefit from the community grant scheme which will be advertised each year, so organisations who wish to seek grant funding from the Commissioner will have a fair, equitable and transparent opportunity to receive funding. The details of grants made will be published each year on our website.

In addition, the Commissioner may also allocate funds from the Property Act using the Property Act Fund process and may allocate further funds to wider grant making organisations to support delivery of crime prevention in local communities.

National Services

There are many incredible national organisations working to support policing and criminal justice matters in the United Kingdom. Unfortunately, there is insufficient funding to support the number of requests the Commissioner receives each year.

To make our position fair and transparent the Commissioner will only fund national charitable organisations whose aims align with the national portfolios taken by the Commissioner and the Chief Constable or where there is a national agreement which identifies schemes which all Commissioners should make a financial contribution to. In 2022/23 the Police and Crime Commissioner is national lead for road safety and local policing and the Chief Constable is national lead for modern slavery and police cadets.

Accessibility Statement

Access to services, promoting equality and addressing inequalities are the focus of the Commissioner's commissioning intentions plan. Throughout the development of the service specifications and processes cited in this document, the OPCC has given due regard to the need to eliminate discrimination, harassment and victimisation, to advance equality of opportunity, and to foster good relations between people who share a relevant protected characteristic (as cited under the Equality Act 2010) and those who do not share it.
